Project and paper topics/ideas for SSW 590 DevOps

Places to find ideas for DevOps tools and systems

https://datascience.foundation/sciencewhitepaper/top-10-popular-open-source-devops-tools

A nice list of top 10 tools. This list provides a variety of options:
- Describe the tool and show a trivial simple application running on it
- Compare a too mentioned to another tool
- Use the framework to do a simple application, e.g., a web server system that spawns more servers as a function of simulated load
